GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN]

Question of War Risks

NEW YORK, April 3 —As yet but few applications have been made to cover war risks on British and Russian hulls and cargoes and no uniform rate has been fixed at marine insurance offices. The inquiry mainly comes from bankers, and insurances have been effected at their request to cover letters of credit for the purchase of goods in Baltic French and Mediterranean ports, at a quarter per cent by steam and a half per cent by sail for the [illegible] and full range of the Baltic, a half of one per cent. The Atlantic, Great Western and Pacific [illegible]. WASHINGTON CITY.

Sargent's Timber Bill.

WASHINGTON, April 2.—Sargent's bill for the sale of timber lands in California Oregon and Washington territory, was reported from the committee to-day with only one amendment, providing that the prescribed penalties shall take effect in 90 days instead of one year after its passage. The committee did not report any of the provisions suggested by the California delegation for the relief of parties already indicted in California.

The Presidio Park Bill.

[illegible] Davis to-day presented to the house military committee a number of maps and reports of the engineer corps and reports of the senate committee of the 43d congress, concerning the Presidio park bill He will [illegible] extended argument on the subject at another meeting The committee manifest considerable disposition to recommend [illegible] of the property instead of granting it for city park purposes

A Weak Measure.

WASHINGTON, April 3 —In regard to resolutions of the Maryland legislature to contest the title of President Hayes, prominent Democrats in congress say they do not believe there are six Republicans and not a single Democratic senator in favor of them Montgomery Blair, however, is industriously at work

CHICAGO, April 3 —The *Tribune's* Washington special says there is much talk over the resolution adopted by the Maryland legislature. A number of excellent lawyers have held that the supreme court has no jurisdiction, and this will be the first question argued. If the court reaches it there will be a move to advance the case on the docket immediately after it is filed, but it is not expected this will be granted, and it may be provided for in a bill which has been prepared covering the question of jurisdiction and providing for a speedy trial Many Democrats will oppose any bill tending to disturb the country, and this would

Warlike News.

VIENNA, April 3 —A dispatch from St Petersburg reports great excitement over the news of the probable alliance between England and Turkey. Everything has assumed a warlike aspect. It is reported Russians are advancing on Gallipoli

LONDON, April 3 —It is again reported that the English fleet is about to enter the Bosporus to counteract any designs of the Russians towards the occupation of Turkish strongholds.

Salisbury's Circular

Vienna papers commenting on Salisbury's circular to the powers say Austria and England are agreed regarding Lord Salisbury's criticism of the treaty of St Stefano and the steps necessary to protect the interests of both states and express a conviction that only by the deference of Russia to Salisbury's views can war between England and Russia be avoided.

A special from Berlin says Russia's reply to Lord Salisbury's circular is preparing. Prince Gortschakoff is said to be anxious to issue it as soon as possible to remove the unfavorable impression produced by the English circular.

Recalcitrant Roumania

Russian newspapers complain of increasing hostility of Roumanians The latter are said to be hindering the passage of Russian provision columns through their territory and to have threatened to forbid it altogether

River and Harbor Bill

WASHINGTON, April 3 —The river and harbor appropriation bill is completed and ordered reported to the house at the earliest opportunity.

More Civil Service Reform

WASHINGTON, April 3 —Senators Sargent and Booth have been requested by the post office department to name some one for appointment as postmaster at San Jose vice Anderson, whose immediate removal is determined on, he having admitted the rent charge and other allegations by the agent fully proven [illegible] the senate [illegible] as possible

It will be reported by [illegible] of Arkansas The committee adopted sundry amendments defining the boundaries of the proposed grant and more explicitly providing that title to lands shall not be acquired except on payment of their present appraised value to the state after furnishing proof that they have been thoroughly reclaimed by irrigation

Sundry Matters of News

The senate to-day passed a bill for the relief of W L Adams, late collector of customs at Astoria, allowing the treasury to credit him in settlement of his accounts with about $12 000, stolen from him while conveying it by steamer to the San Francisco sub treasury ten years ago.

The members of the senate public land committee say the only reason why they did not add to Sargent's timber bill the provision prepared in California and offered by Booth for partial relief of parties recently indicted is that it was so worded as to seem to be applicable to all parts of the country although intended to apply only to the Pacific coast Sargent will offer it in such shape as to avoid this objection when the bill comes before the senate

The investigation conducted by the house postal committee has developed extraordinary irregularities in the preparation of numerous bids and bonds upon which mail contracts have been recently awarded to various members of the great combination of contractors comprising J M Peck J R Minor J Dorsey J W Watts and A J Boon The combination is known as the inland mail transportation company Bids in the name of Minor alone amounted to over one million dollars It is evident from testimony already elicited that in very many instances what purport to be original signatures of various members of the combination were affixed to bonds and bids by Boon, the resident Washington agent while the parties themselves were hundreds of miles away There is no doubt that Boon's action was in accordance with the desire of the parties whom he represented There seems to be good reason for the belief entertained by the instigators of the investigation that the awards will be set aside by reason of these irregularities

Booth's speech to-day on the Pacific railroad sinking fund bill was listened to by the senate with close attention Its arguments were, however, to some extent deprived of freshness by preceding speakers on the same side of the question and very largely by his own speech delivered two years ago

Senator Dorsey went before the house committee on postoffices this morning and told the committee all about his action in aiding mail contractors in his section to prepare their bonds He had done nothing that was not perfectly lawful and proper and he should do it again whenever occasion offered He denied that he had any pecuniary interest in any mail contract The service he had performed for contractors was done for no reward or expectation of any

The Tariff Bill

WASHINGTON April 3 —To morrow Representative Wood's tariff bill will be taken up according to previous order Since reported the bill is gaining friends The conclusion has been reached that it will receive a fair majority a canvass of the house having been taken

ATLANTIC CABLE

Killing of the Earl of Leitrim

LONDON, April 2 —The Earl of Leitrim was shot opposite a cottage from which he had recently evicted a widow His body was found in a ditch The left side of his head is battered in It is thought he was also shot in the head but the fatal shot was through the heart His left arm is broken and the right completely shattered Three or four men were seen loitering in the neighborhood before the murder Eighty nine of his tenants were under notice to quit

NEW YORK April 3 —A dispatch to the *Tribune* from Dublin states that the assassination of Lord Leitrim and his two attendants was the result of agrarian troubles Lord Leitrim had a dispute lately with his tenantry some of whom manifested much bitter feeling at their alleged grievances There is intense indignation among the people of Donegal county over the outrage and measures are being taken to discover the perpetrators

Promoted.

It is announced in official form that Sir Charles Adderly will be elevated to a peerage and Viscount Sandon succeed him as president of the board of trade

An Earl Murdered.

DUBLIN April 3 —The Earl of Leitrim left his residence at Milford shortly before 8 o'clock yesterday morning accompanied by his clerk and was driving on an outside car to Derry to meet his solicitor He always carried arms It is supposed the assassins concealed themselves behind a low embankment between the road and plantation and that having first shot the earl, they shot his clerk and driver that there might be no witnesses His lordship's valet was driving about a mile behind, and on coming up found his master and clerk lying dead on the road The assassins meanwhile escaped in a boat across Mulroy bay The valet drove back to Milford and alarmed the police who, coming to the place found the driver still alive but unconscious He died shortly afterwards There is no doubt the murder was agrarian Relations between the earl and his tenants were unfriendly His lordship was kind and liberal to the poor but was very particular and exacting in his dealings with his tenantry, visiting with unsparing severity the slightest infraction of rules of the estate The riband society have a strong hold upon the county, owing in a great measure to his harshness He had an iron will which disregarded alike appeals or menaces and he possessed extraordinary courage and perseverance in pursuit of his purposes The London *Times* in an editorial on the assassination says it is no exaggeration to say that the news of the murder which caused a profound sensation in the house of commons yesterday when confirmed by the Irish secretary has struck this country with as much pain and amazement as an unprovoked declaration of war

The New York Journalists of To-Day

[Jo Howard in Cincinnati Commercial]

George Jones was the publisher of the *Times* in the old days He was a fair business man, honest and asthmatic When he went south for his health his friends in addition to stocking the vessel with every delicacy also provided a handsome iron casket in which to bring him back Strange to say Jones outlived Raymond [illegible] have acted [illegible] Harpers [illegible] the *Herald* London correspondent [illegible] the Brooklyn reporter [illegible] Mr Allen [illegible] at last [illegible]

The [illegible] thinks [illegible] forward [illegible] from Philadelphia [illegible] of [illegible] cent dollars must be as easy as lying

THE EASTERN QUESTION.

Russian Ultimatum

CONSTANTINOPLE April 3 —[illegible] fearing the Turks will endeavor to maintain neutrality [illegible] the Russian embassy [illegible] demand which may be regarded as an ultimatum The [illegible] to the Russians of the fortifications on both sides of the upper Bosphorus at Gallipoli and Bulair on the Dardanelles The Turks are also to evacuate Mal[illegible] and Maslak and place some barracks and hospitals at the disposal of the Russians Grand Duke Nicholas last night urged these demands upon Raouf Pasha and they will be submitted to the council It is said that the sultan and Vefik Pasha oppose them

Ships for Piraeus

It is probable that four ships of the channel squadron will go to Piraeus

To Return to Vienna

VIENNA April 2 —It is announced that Gen Ignatieff will return here after he has consulted Prince Gortschakoff on Austria's objections to the treaty

Orders to Servia

BELGRADE April 3 —It is reported the Servians by command of Russia will shortly occupy Widdin and Ada Kaleh Austria is likely to protest against the occupation of the latter place The feeling in Servian government circles inclines to Austria rather than Russia and willingness is even expressed to make a military convention with the former

Recalled

LONDON April 3 —The *Standard* announces officially that it has been decided to immediately recall the Duke of Edinburgh from the Mediterranean

Buying More Steamers

The government has bought another large steamer at Belfast for transportation service

Talk of Mediatory Resolution

NEW YORK April 3 —A special from Washington says several senators have of late discussed among themselves the propriety of preparing a joint resolution which should express deep regret on the part of the United States at the prospect of a serious misunderstanding and interruption of the peaceful relations between the people of Great Britain and Russia and request the president to use all means as far as he can consistently with his constitutional duty to aid in restoring the relations of amity and confidence between the two governments and people It is proposed to discuss with Secretary Evarts the propriety or usefulness of such a joint resolution before it is drawn up

Russian Stocks in London.

LONDON April 3 —Stocks flat, particularly Russian securities This morning's news shows very little change in the eastern question

More Talk of the Congress.

LONDON April 3 —Dispatches from Berlin and St Petersburg state there is grounds for expecting a renewal of the congress negotiations on the basis of the proposal of Bismarck that the powers be invited to meet and revise the treaties of 1856 and 1871 Such an overture from Germany would spare Russian susceptibilities It is improbable that Russia will take any step or come to any decision until Ignatieff has reported

A Sensation Factory.

The stories that Russians have made a demand for the surrender of Turkish positions on the Bosporous are attributed to a regular manufactory in Constantinople of irritating statements for the purpose of provoking England and Austria against Russia

Massacres by the Turks

ATHENS April 3 —The admiral commanding the U S squadron cruising in Greek waters has ordered a man of war from Smyrna to proceed to Volo near which place according to latest accounts massacres and pillaging by the Turks still continue

Movements of Russian Troops.

BUCHAREST April 3 —Two Russian army corps stationed in Bulgaria have been ordered to return to Roumania and take up position between Giurgevo and Bucharest It is feared the Russians may impose a state of siege throughout Roumania

Roumania and Russia.

At the secret session of chambers to-day MM Ghika and Stourdza reported the result of their recent missions to London and Vienna respectively The former said the English cabinet had encouraged Roumania to hold out in regard to Bessarabia The latter said Austria laid stress upon the necessity of the Bessarabian question being settled by the decision of Europe

England and Austria.

LONDON April 3 —The *Times* editorially says The main fact in the present posture of affairs is that Austria and England are one in their view of the treaty of San Stefano and of the only means by which without war it can be brought into harmony with the just claims of the other powers Public opinion of Europe is with them and if they act together with firmness and loyalty Russia may be induced to withdraw from her position which would then be obviously untenable

England will take measures for the protection of her interests which would, however by no means inevitably cause war

Interpreters Engaged

SALONICA April 3 —The English consul is engaging interpreters knowing Greek, Turkish and English languages at a salary of $150 per month commencing immediately

A Mixed but Significant Dispatch

LONDON, April 3 —The London correspondent of the Manchester *Guardian* calls attention to the significance of a Vienna dispatch to the *Eastern Budget* which was published here yesterday simultaneously with the appearance in Vienna of a dispatch making a similar statement which was telegraphed from London to the *Political Correspondence*. The statement is to the effect that the Austrian government has informed General Ignatieff that it required alterations to be made in the peace preliminaries and that such alterations should be made with the concurrence of the other powers There is therefore no prospect of England being isolated and the action of the Vienna cabinet is calculated to promote interests of peace The fact that this statement appeared at the same time in the *Eastern Budget* and *Political Correspondence* both journals semi official in character add to its significance The *Political Correspondence* reviewing Lord Salisbury's circular considers that in the last resort the attitude of Austria and England will inevitably lead both to the same issue if the congress does not meet

The Trouble at Volo.

ATHENS April 3 —The American man of war ordered to Volo is the *Mo*[illegible] [illegible] as she can render the suffering Greeks however is quite inadequate and perhaps too late The French and Austrian consuls at Volo telegraphed for men of war as the Turks are quite demoralized and have threatened a French officer An English man of war is expected The Italian government has ordered Italian vessels to receive refugees

An Encouraging Word from Germany

BERLIN April 3 —The *P*[illegible] publishes an article which is believed to be inspired [illegible] Lord Salisbury's criticisms of the San Stefano treaty [illegible] remain [illegible] England [illegible] has to choose between war [illegible] parting with [illegible] she would have to [illegible] congress

A Long Discussion Opened

ST PETERSBURG April 3 —[illegible] Lord Salisbury [illegible] no proposals

Protest Against England's Policy

A deputation of [illegible] to protest against the [illegible] government [illegible] disapproval [illegible] calling out the reserves [illegible] the desire of the [illegible] party to [illegible] met at the Westminster Palace hotel this afternoon by Lord Granville and Hartington The deputation included about 300 representatives from all parts of the kingdom Joseph Chamberlain member of the house of commons from Birmingham presided

Lord Granville addressed the deputation and said he required no stimulus to [illegible] to prevent the country from being dragged into a war which neither its honorable engagements nor national interests demanded [illegible] it would be deceiving themselves and Russia to conclude that the opposition could prevent the government from going to war if the government was bent on a warlike policy

Lord Hartington said the present duty of the opposition was to interpose by every means in its power obstacles to any rash and ill considered action of the government the result of which might be war

Official returns show that last week the Russians had 53 000 sick in Europe alone

Hungary Stands in with England.

A correspondent at Vienna hears from an official source that M Tisza premier of the Hungarian ministry has informed the emperor and Count Andrassy that he couldn't answer for the consequences in Hungary if Austria took a decision hostile to or independent of England

Italy Asked to Join England

ROME April 3 —The *Fanfulla* newspaper, believes the English ambassador is actively urging the Italian government to assume an attitude favorable to England

What Servia may Do

Prince Milan declared that Servia would co operate with Russia until Turkey was completely dismembered Servia's policy being the formation of a kingdom comprising her present and former territory

Russia continues to purchase large quantities of war material from Germany

Lord Salisbury's note has put an end to the plan for a revival of the congress scheme which Russia momentarily considered

ST PETERSBURG April 3 —As the British government confines itself to a purely negative criticism it may possibly be asked to suggest some solution of its own It is argued if the English cabinet really desire to avoid war some pacific solution may still be found The public regard the circular however as new proof that England has decided upon war while in the official world it is said although the circular is not pleasant reading for those who desire peace it has the advantage of intelligibility

Intends to Stay.

LONDON, April 3 —The *Standard* announces as proof that there is no intention of complying with the reported demand for the withdrawal of the British fleet from the sea of Marmora that the ironclad ram Rupert and the ironclad turret ship Devastation have been ordered to join the squadron there to replace the Sultan which will return to England to refit

Arrested on Suspicion.

Two men have been arrested on board a steamer going from Rathmullen to Londonderry on suspicion of complicity in the murder of Lord Leitrim

CONGRESSIONAL.

Senate.

WASHINGTON April 3

Chaffee introduced a bill to amend the Pacific Railroad acts of 1862 and acts supplementary Laid on the table to go with the pending funding bills

Booth addressed the senate on the funding bill

Before Booth took the floor Thurman proposed an amendment to be offered at the proper time providing that bonds purchased for the sinking fund shall be so stamped as not to be transferrable. At the conclusion of Booth's remarks Thurman said that owing to the sickness of some and the absence of other senators he would not insist on a vote to-day but would ask the senate to dispose of the bill to morrow

House.

Banks from the committee on rules reported back the resolution admitting a representative of each public journal which employs a permanent correspondent for reporting the proceedings of congress to the halls and passage ways around the hall of the house adopted

Heavy Hail Storm at San Jose.

SAN JOSE April 3 —The heaviest and most destructive hail storm ever remembered in this section passed over the city about 5 30 o'clock The first indication of its coming was noticed in insignificant lightning flashes and gathering blackness in the sky southward about 5 o'clock P M the day previous having been clear and warm The storm approached with unparalleled swiftness, the flashes growing so frequent as to be coruscations of fire and twenty minutes after the first cloud speck the sky was entirely overcast and the thunder was one continuous rumble Then a few scattering balls of hail averaging the size of marbles, told what was coming The hail descended with a rush and for a few minutes the scene was indescribable The rattle of hailstones was deafening, they averaging between three eighths and one inch in diameter The fall lasted about twenty minutes and was followed by heavy rain for about five minutes During that time the street gutters were filled to a level with the sidewalks and in many places these were flooded In the office of the American District Telegraph Company fire danced about the instruments until it was deemed necessary to detach the wires for safety The storm was so sudden that many of the water pipes were burst Water pipes were choked and the water backed up and stood several inches deep on some flat roofs It is believed the storm has caused a great deal of damage to fruit and strawberry crops

The National Debt.

[From the New York Evening Post]

Throwing off odd hundreds of dollars which are of no account in dealing with so large sums, the national debt was on the 1st of March 1869 $2 525 463 000 Eight years later namely March 1 1877 the debt amounted to $[illegible]085 781 000 The decrease had been $4[illegible] 000 in eight years and the average yearly reduction had been $5[illegible]35 000—still throwing off the odd hundreds of dollars for convenience In other words we have been paying the enormous expenses of the government paying the interest on this great debt and at the same time paying off the debt at the rate of $5[illegible]35 000 a year Meantime the rate of interest has been lowered on a part of the debt and the total amount of interest to be paid has been still further diminished by the constant reduction of the principal It ought to be easy therefore to pay off the debt at a still faster rate hereafter than heretofore but it is a startling fact that without any increase [illegible] in a little more than [illegible]

A Suggestion.

TO THE EDITOR OF THE OREGONIAN

The curtailment in state expenses a confiding public expects the coming legislature to make should include the abolition of the office of the superintendent of the penitentiary It is a wholly useless one and the large expense entailed by it is unnecessary There are no duties to be performed by the superintendent which do not properly belong to the warden of the prison and which cannot be better performed by him. It is a divided authority where there ought to be no division As all know it is better for one man to do one man's business than it is to place two in charge of it. There has never been an officer about the prison who does not know that it would be better for the discipline and management of the institution if there was no superintendent there—only a warden The state would save $1,800 the superintendent's salary and the expense of his and family's living and get better service

I do not know that no state has a superintendent of prisons but I do know that many of them including some of the largest have none If prisons containing thousands of convicts do not need one, certainly Oregon does not. RETRENCH

GOING FOR IT

Quite a commotion is the consequence of the adoption of Blair's resolution by the legislature of Maryland Any movement like this will be premature until the Democrats obtain control of both branches of congress This incident will serve to keep the subject alive till then And then the movement will come to the front with a yell After the 4th of March next the senate will undoubtedly be Democratic The majority will not be less than six and it may be many more Upon the composition of the next house of representatives it is not worth while to speculate There is a chance of course, that it may be Democratic When every district in the southern states sends a Democratic member that party has a prodigious advantage which it is hardly possible to overcome

It is an entirely safe prediction that if there be a Democratic majority in both branches when the next congrees assembles the president's title will be attacked before the end of the first week thereafter Then these preparatory skirmishes will be succeeded by a movement all along the line A great disturbance is likely to be the consequence The president's assailants will be bold and aggressive. His defenders are not likely to be numerous or resolute for he has given offense to the "fighting members of his own party who since they can't use the executive office to get what they want, think nothing gained in Hayes, and don t see why Tilden mightn t as well be president as not Resentful for cold treatment and neglect, and brooding over their disappointments, their disposition will be to let Hayes take care of himself Many of them will secretly hope to see him ousted from the presidential chair In the first place it would be revenge and in the next place they would see a prospect of appealing to the country against "the great outrage," carrying the next election like a whirlwind and getting a more tractable man.

But how far would the Democrats go with this business? The determined ones would go just as far as they could And though there would be dissentients who would put in a plea for moderation and peace, yet a great majority would be carried by the discipline of an intense and resolute partisanship Probably they could pass an act giving jurisdiction to the supreme court Or even more direct methods to reach the end might be devised and adopted Who knows but in this affair we shall witness a repetition of that fateful folly on the part of the Democracy which many of their opponents have come to depend upon as certain to keep that party out of power?

THE SIXTEENTH AMENDMENT

It appears to be thought that the constitution and its fifteen amendments fail to do justice to the greenback party, hence the sixteenth amendment is proposed. There are those who recognize the difficulty of dealing properly with the greenback question under the constitution as it is That instrument was the handiwork or clumsy work of a people who had an idea that the material of money should be a substance of value, namely, gold or silver This admiration of gold and silver, a passion fit only for barbarians, the present age may fairly boast of having outgrown. Hence in order to obtain the absolute dollar, which, as a creation of something out of nothing, would be the highest exertion of omnipotence, it is necessary to get rid of the clogs and trammels of an effete constitution. Then when we get the sixteenth amendment the greenback mill may begin to run at once, and government may make money for its people and give them riches even superior to the wealth of those who boast of their stores of silver and gold. In order to effect the deliverance of the people from a slavery to money having an actual value and therefore hard to get, which slavery they have endured already much too long, Ewing of Ohio, champion of greenbacks, has formally proposed the sixteenth amendment for consideration of the house of representatives of the American people. It provides that in order that the people of the United States may be furnished with a sufficient amount of money congress shall make provision for issuing sundry millions of dollars of United States notes not bearing interest, which shall be a legal tender for all debts public and private Also that the amount of such notes shall be increased each year at a rate equal to the average increase of population This is a beautiful theory Government is to make our money for us when we get the sixteenth amendment, and we shall no longer be obliged to work for it The party that proposes this ought speedily to become the biggest party in the United States We go for the sixteenth amendment and free money. Thus shall we bring confusion to those who set such store by silver and gold

A PROPER PROTEST

When the Northern Pacific company protest against embodying in their bill for extension of time a proposed land grant for another road, the protest must be accepted as entirely reasonable It has been the worst possible policy to endanger the whole undertaking by overloading it with outside conditions. The company was entitled to extension on fair terms It has made no request for extension of time on the branch land grant to Puget Sound To us who are immediately interested in the development of the northwest, a grant on the proposed Salt Lake route would be a very desirable thing We should be glad to see a grant of lands equivalent to that relinquished on the branch bestowed on any company that would undertake to build from Umatilla eastward Such proposition would have the unanimous support of our people But there is objection to it in congress, there is room for gravest doubt whether such measure can pass and it is neither fair nor right to bring it forward in a way that increases the opposition to the other Each should have merit to stand on its own foundation Much as we should desire to see aid furnished for a road eastward from Umatilla, it is useless to ignore the strong probability that such grant cannot be secured But if we can t get all, why put everything at greatest risk? Separate the propositions and everybody in Oregon will zealously support both But it evidently has been the aim and purpose all the time to load the Northern Pacific up with conditions which would make the passage of any practicable bill impossible So far it has succeeded and the prospect grows that it will be successful to the end

THE CUT DIRECT

In the reference of the house railroad bill to the senate committee on public lands instead of to the committee on railroads Mr Mitchell's schemes received the cut direct This action on the part of the senate was a plain declaration that in its judgment Mr Mitchell's hostility to the N [illegible] unreasonable and unjust and therefore that the proper way to provide a [illegible] enterprise which seeks reasonable aid at the hands of congress is to place it in the hands of a committee which would be disposed to give it a fairer consideration After the railroad committee had been dealing with the subject for five months this reference to another committee was tantamount to an expression of opinion on the part of the senate that its railroad committee had been merely obstructing the progress of the measure had not dealt with it in proper spirit and in consequence that another committee should be entrusted with the work When it is decided by the body of the senate that the senator from Oregon is not dealing fairly with a great enterprise and is not taking a proper course to secure important and needed results for his state it is an event to make a note of The chances are that his purposes in all this will fail as signally as his advocacy of the bill to prevent the senate through its judiciary committee from enforcing the rights of the government against the Union and Central Pacific railroad companies

At the beginning of the year 1877 the public debt of the Russian empire was nearly $1 300 000 000 Since then the costly war against Turkey has been carried on The debt of the empire cannot now be much below $2 000 000 000 Just before the beginning of the recent war a loan of one hundred million roubles—$75,000 000—was called for Five per cent bonds were issued for the amount and the loan was taken by subscription through the Bank of Russia at the rate of 92 per cent This, though not the worst credit in the world is not a favorable showing for a first class nation All reports recently received from London announce that Russian securities are flat on that market The English take pride in predicting immediate bankruptcy of the Russian empire in case of war But perhaps they are not disinterested prophets

W S Caldwell Esq, who has served the city of Portland as auditor and clerk for eleven years, tendered his resignation last night It rarely happens that a public official serves with universal acceptability for so long a time That Mr Caldwell should have held this position so long amid partisan changes in the city government is a fact which in itself furnishes a high testimonial to his integrity and efficiency It will be noticed that the common council on receiving his resignation, adopted a resolution which pays a high tribute to his long and useful services

T D Woolsey, ex-president of Yale and an acknowledged authority on international law, takes issue with Senator Blaine on the legality of the Canadian award He shows that international arbitrations are governed by Roman and not by English law except where otherwise provided, and under the Roman law a majority of the arbitrators could decide Dr Woolsey considers the United States bound by the award because it is legal, though unjust.

Even in New York the Greenback or National party claims to be a growing power In most of the counties the election of boards of supervisors has been regarded as a test of the strength of parties In the spring elections, as the complete returns show the Democrats lost 47 supervisors and the Republicans 19, as compared with last year The greenbackers and workingmen got them.

POLITICAL POINTS

The La Grande *Gazette* (Rep) claims the candidate for congress for the counties east of the mountains, and nominates J W Snodgrass

In Clatsop the Democratic and Greenback tickets are identical for all the principal offices and the fraternizers loudly boast that they will get away with it

We are told that in Union candidates have adopted a new plan of electioneering to wit The candidate starts out in the morning with a cushioned chair on his back, he meets a man he wants to have vote for him he stops, sits down in his big chair, and the voter succumbs at once

At Steilacoom the municipal election was held on the 1st Wolf Schafer was elected Mayor by forty eight majority Councilmen elected Hill Harmon, W H Wallace W R Downey, George Weller and William Thompson Treasurer Isaac Pincus clerk, S Marcus, recorder, W H Mastin

The *Sentinel* claims that now the first time for years, harmonious relations exist among the Democrats of Union county Local strife engendered by bitter feelings existing between certain rival towns, has been a formidable element in the politics of Union county and has made itself felt with marked effect at the polls But the county seat question is now laid upon the shelf and we are told that brethren long estranged are now rushing into each other's arms

OREGON

The cash business transacted in the U S landoffice at La Grande, from Dec 31, 1875 to Dec 31, 1877, amounts to $48,044 95

La Grande *Gazette* About one third of the population of Oregon is east of the Cascade mountains to day, and in three years half will be

Parties directly interested are discussing the question of building a narrow gauge railroad from Salem to Dallas via Dixie The cost will be light, as the grade is very easy, with but little bridging

Noting the demand of the Columbia river fishermen for 75 cents for each fish, Puget Sound papers are putting in a reminder that salmon there cost only 5 cents apiece and there is room for many large fisheries

Says the *Astorian* "We notice THE OREGONIAN is very careful to copy everything which the Yamhill *Reporter* publishes against the Astoria and McMinnville railroad bill Why is it?" Simply because it is the most absurd of ideas that any railroad will be built under this bill, and it is the duty of a public journal always to expose shams and humbugs.

A Scared Democrat.

[From the Utica Observer (Dem)]

It is impossible to escape the conclusion that the Republican party is still a tremendous force in politics Democrats who have been hugging the delusion that the path to victory led through a bed of roses may as well awaken at once to the reality We must fight for all we gain Claims of doubtful origin, northern or southern, must be rejected by congress Expenditures must be cut down even below the level of the past two years Useless offices must be abolished, entangling alliances, either with the Hayes or anti Hayes Republicans, must be avoided The doors to prosperity must be opened through the adoption of a tariff system which does not prohibit trade with foreign countries Gold and silver must be released from the bondage of a premium by the resumption of specie payments These are duties demanding the attention of the Democracy If they are neglected there is danger ahead

FISH PROPAGATING COMPANY —Tuesday a meeting was held at the room of board of trade in this city by the stockholders of the Fish Propagating Company elect a board of directors and to transact other important business connected with company By reason of the failure of several large canning establishments the proprietors of which had subscribed liberally toward maintenance of the important enterprise was found that there existed a deficiency nearly $5 000 It is impossible to proceed further with the work this season without financial assistance The stockholders confident that the enterprise can be maintained during the present year if the sum from $3 000 to $4 000 is raised With such assistance they are confident that they hatch and place in the river during the season at least 10 000 000 salmon Several of canneries have already responded quite liberally—advancing 20 per cent on the amount heretofore subscribed and paid in last season Among a few of the merchants in this city yesterday nearly $1 000 was subscribed toward supplying the deficiency To-day a committee will call on all the merchants and business men of Portland for subscriptions This most important enterprise and should not abandoned for want of proper encouragement and assistance It is to be hoped the merchants of this city will view the matter business light and respond liberally following persons compose the new board directors of the Fish Propagating Company J G Megler John West John Adair Jr W Cook and Capt John Harlow

LARGE BOILERS —Two large and massive constructed boilers have just been turned at the Willamette Iron Works and will be ready to be placed on board the steamers for which they are intended One of the boilers was built for the steamer *Emma Hayward* and the other for the steamer *Tenino* the Upper Columbia The dimensions are follows Length of the shell, 33 feet, diameter of the shell 5 feet, fire box, 5x5½x7 There are 150 tubes 2¼ inches in diameter one of these boilers and 140 in the other. all other respects they are exact duplicates The iron of which the boilers are construed is ⅜ of an inch thick and of the very best quality The smokestack is 48 feet long and inches in diameter No more substantial boiler work has ever been turned out from any other shop in the state. Such work credit alike to the state and the workman

THE LATE CAPT WOODS —Mr. Henry Brown who resides at Gervais, Marion county, writes the following note bearing date of April "In THE OREGONIAN of April 2d I observe paragraph concerning the capsizing of schooner *Gen Miller* and of the supposed loss of all on board the vessel Capt Leroy Woods who was no doubt lost, was the son of James and Harriet Woods of Centerville, Wayne county, Indiana, and was named for the Rev Leroy Woods of the Cumberland Presbyterian church He was a cousin of my wife. were married at his father's house in 18 He was then but a small boy. During the war of the rebellion he was recruiting sergeant in the U S army. Nearly two years ago he captured a vessel on the coast of Alaska and brought it to Astoria and Portland He was about 40 years old."

A FATAL ACCIDENT.—While the steamer *Gussie Telfair* was on the way from Portland to Astoria an accident occurred during Monday night which resulted in the death of second officer, whose name was James Hayde He fell down the fore hatchway which had been left open, and striking his head with great violence received fatal injuries. He remained unconscious until o clock Tuesday morning when he died Hayde was well known in this city, where he has resided several years. He was a hard working steady fellow, and generally well respected He was about 37 years of age, a native of England Deceased leaves family Yesterday evening the remains the unfortunate man arrived here on the Astoria boat and will be buried to-day.

THE NEW BOAT —Sometime ago the O S. Co concluded to remodel the steamer *Oneonta* rebuild portions of the hull and upper works and place in stronger machinery. Before commencing the work the company thought it would be better to build a new boat, and enlarge the machinery. Accordingly two large cylinders were cast—24 inch bore, and feet stroke—and are almost finished. Subsequently the company concluded not to place the new and enlarged machinery in the boat it was proposed to construct Machinery similar in dimensions and power to that used on the *Wide West* is now on the way from Wilmington Delaware and will soon arrive here, which will be employed in driving the new steamer

QUARTERLY REPORT —From the report Joseph Bachman city treasurer, for the quarter ending March 31 1878, we have been permitted to make the following extracts: General fund Balance remaining in treasury $8 261 83, police fund $6 332 18, fire department fund $21,134 56 street lamp fund, $ 321 13 interest fund, $7 663 15, park fund $320 80, surplus fund $78 80, railroad fund $59 12, street improvement fund, $2,988 street extension fund, $462, street sewer fund, $64 09, total balance on hand, $55,685

BASE BALL —It is more fitting to chronicle base ball for boys than for men. Therefore when a delegation of little fellows came into our office last night and wanted us to report game they had been playing we couldn't refuse They played yesterday at the corner of Eighth and Jefferson The rival clubs known as the Actives and Amateurs At the close the score stood Actives 45, Amateurs 36 We suspect it was a delegation from the Actives who wanted this put in print.

THE HANDSOME THING —Our old friend Wm S Caldwell, did the handsome thing last night after the council adjourned. He invited the mayor members of the common council the new auditor, Captain Allen of the police force and representatives of the OREGONIAN and *Standard* over to Alisky & Hegele's where a good lay out was in readiness Some time was spent in discussing the edibles and lively conversation, when the party dispersed

RUNAWAY —A livery team driven by Mr Goodnough took fright about five miles east of East Portland yesterday, caused by the linchpin dropping out, leaving the vehicle and its occupants on the road. The horses kept on their wild course till they reached East Portland where another team became alarmed by the sudden appearance of the runaway and ran off and struck out in an easterly direction No damage of moment to report

PROGRESS MINSTRELS —This organization will repeat their entertainment with entire change of programme at New Market Theater to morrow evening The management promise an excellent programme new faces and better material having been enlisted in the interest of the club A large number of seats have been engaged and the success of the affair is assured Matinee Saturday and evening performance that day

HELD TO ANSWER — Bridget Doyle and Thomas [illegible] were arrested yesterday charged with the crime of adultery and a examination of the case took place in police court [illegible] Defendants were both held to answer the charge before the grand jury [illegible] in the sum of $600 They were [illegible] in default of bonds

The New Boat.—Sometime ago the O S N Co concluded to remodel the steamer *Oneonta* [illegible] portions of the hull and upper work and place in stronger machinery Before commencing the work the company thought it would be better to build a new boat, and enlarge the machinery. Accordingly two large cylinders were cast—24 inch bore, and 6 feet stroke—and are almost finished Subsequently the company concluded not to place the new and enlarged machinery in the boat it was proposed to construct Machinery similar in dimensions and power to that used on the *Wide West* is now on the way from Wilmington, Delaware, and will soon arrive here, which will be employed in driving the [illegible]

Quarterly Report.—From the report of Joseph Bachman, city treasurer, for the quarter ending March 31 1878, we have been permitted to make the following extracts General fund: Balance remaining in treasury, $[illegible]; police fund, $3 332 18 , fire department fund, $21,134 56 , street lamp fund $8,[illegible]; interest fund, $7 663 15 , park fund $[illegible]; surplus fund, $78 80 , railroad fund $[illegible]; street improvement fund $2 988 82 street extension fund, $462 , street sewer fund, $[illegible]; total balance on hand $55 685 76

Base Ball.—It is more fitting to chronicle base ball for boys than for men Therefore when a delegation of little fellows came into our office last night and wanted us to report a game they had been playing we couldn't refuse. They played yesterday at the corner of Eighth and Jefferson The rival clubs are known as the Actives and Amateurs At the close the score stood, Actives 45 Amateurs 26. We suspect it was a delegation from the Actives who wanted this put in print

The Handsome Thing.—Our old friend Wm. S. Caldwell, did the handsome thing last night after the council adjourned He invited the mayor, members of the common council, the new auditor, Captain Allen of the police force, and representatives of the Oregonian and *Standard* over to Alisky & Hegele's, where a good lay out was in readiness. Some time was spent in discussing the edibles, and lively conversation, when the party dispersed

Runaway.—A livery team driven by Mr Goodsough took fright about five miles east of East Portland yesterday caused by the kingbolt dropping out, leaving the vehicle and its occupants on the road The horses kept on their wild course till they reached East Portland, where another team became alarmed by the sudden appearance of the runaway, and ran off and struck out in an easterly direction. No damage of moment to report

Progress Minstrels.—This organization will repeat their entertainment with entire change of programme at New Market Theater to-morrow evening The management promise an excellent programme, new faces and better material having been enlisted in the interest of the club A large number of seats have been engaged and the success of the affair is assured Matinee Saturday and evening performance that day

Held to Answer.—Bridget Doyle and Thomas Coyne were arrested yesterday charged with the crime of adultery and an examination of the case took place in police court in the afternoon Defendants were both held to answer the charge before the grand jury, each in the sum of $500 They were committed to jail in default of bonds

Inspected.—The handsome little tug [illegible] which belongs to Messrs Corbitt & Macleay now lies at the foot of F street She came up a few days ago to have her hull and boilers inspected Everything being found in splendid condition certificates were granted and the little tug will soon go down the river

On the Patterns.—A number of workmen are now busily engaged in making patterns at the Willamette Iron Works of the front [illegible] to be erected this season near the corner of Stark and Front streets The [illegible] are to be of very handsome design

Religious Service.—The fifth of a series of meetings preceding Easter will be held this (Thursday) evening at the Unitarian church Subject, "Responsibility for [illegible]"

Will be Overhauled.—Work on the O S N Co's magnificent new boat *Wide West* is being crowded forward and ere long she will be ready for service We understand that the company intend to put the *Wide West* on the route in place of the *Emma Hayward* when she is ready for service, and the latter craft will be hauled out and generally overhauled

Bitten.—From the *Advocate* it is learned that a few evenings ago while a lady was walking on the sidewalk up the street a rat ran out from its nest under the plank took refuge beneath the lady's dress, and during her effort to be freed from the rat it bit her severely on the ankles the effect of which has caused her to be seriously sick

At Astoria.—The steamer *Gussie Telfair* which was sold to certain parties in San Francisco last week is now at Astoria She is to be beached and a new propeller shaft placed in position when the steamer will sail for Coos Bay On arriving at that port the *Telfair* will receive a cargo of coal and leave for San Francisco

Andrew not Henry.—We published a few days ago a list of prisoners confined in the county jail In the list is Henry Whittle for larceny Mr Whittle requests us to say that there is an error in the publication of the name It should be Andrew instead of Henry Whittle

AMATEUR SOCIETY CONCERT.

The second and last concert of the present season was given last evening at Masonic hall under the auspices of the Amateur Musical society Aside from several orchestral selections Prof Timm executed the "Carnival of Venice" on the cornet, which was heartily applauded, to which Mr Timm responded by playing another solo Prof Brenner's performance on the violin of airs from "Martha" was particularly fine in fact the best we have heard him perform for a long time Miss Emma J Miller of Oregon City sang "Waiting," by Millard, which elicited the heartiest applause of the evening, to which the lady bowed acknowledgement and sang another selection Miss Miller's reputation as a vocalist requires no comment at our hands Miss Eugenie Rosenheim made her first appearance in a long time at the piano and rendered in her own inimitable style "Fantasie" by Gottschalk This was appreciated fully as was evinced by encore, the lady responding and executing a difficult selection Though more numerous than usual the selections arranged for the orchestra which consisted of 19 persons were unexceptionally good Grand March "Tannhauser" (Wagner) and Fantasie "Traumbilder" (Lumbye) being greeted with the largest share of applause Every seat was occupied, the audience being composed of our best citizens who always attend in large numbers a meritorious entertainment

With last night's concert Mr Simon Harris severs his connection with the society business in San Francisco necessitating the action In Mr. H the society have had a most active worker and thorough musician and his absence will be regretted The society is in a prosperous condition a fact that will be received with satisfaction by our music loving citizens The Weber piano and Estey organ used on the occasion were kindly loaned by D W Prentice & Co and they made a most valuable acquisition to the music department It is seldom these instruments appeared to better advantage than last evening

THE FASHIONS.

Bright sunny days have come at last and with them the usual spring openings Idle curiosity to see what women wear on their precious heads led us to call yesterday on Mrs Clarke and interview that lady about hats and bonnets Looking about we observed an endless variety of shapes besides a great many which had been trimmed up with all the necessaries to render them attractive to various tastes The special "love of a bonnet" we could not determine but feel satisfied that every lady who called took a fancy to a particular one, which she no doubt designated "perfectly lovely" The styles are innumerable, among which may be mentioned the Waverly, Modjeska, Musette Belvidere, Stratford Marchioness Violet Cleopatra Royal, Heliotrope Opera and Victoria These are but a small portion of the shapes exhibited Mrs Clarke has had years of experience and this is a guarantee that the best and handsomest may be found at her Lyon establishment

WORKING MEN'S MEETING.

[illegible]

Pursuant to notice duly given the Working men, or at least a branch of them held a public mass meeting at the court house last night The procession led by the Northwestern Band formed on First street near Alder and marched to the court house gathering large numbers as it passed along until when the place of meeting was reached the court room was well filled the crowd being made up as far as we could judge of people from nearly all the walks of life and best known to our reporter of all political parties

THE MEETING OPENED

by music by the band after which [illegible] Hicks was chosen president and Geo C [illegible] secretary The president on taking the chair said

To the Fellow Citizens and Brother Laborers We have met here this evening to give public expression and an open demonstration of our principles our aims and our intentions We are not engaged in any unworthy motive We claim to be peaceable law abiding citizens We disclaim all idea of communism or intention to tear down and destroy on the contrary we seek to build up and beautify We are not here to make war upon legitimate capital on the contrary we esteem our hands and arms emblematical of our fidelity and our muscle and invite it to join hands with us for the mutual welfare of each and all We mean no conflict with legitimate enterprise nor antagonism to clean money we want its aid, but it shall not become our master nor we its slave We mean to uphold the dignity of labor to affirm the nobility of all who live under the Divine command By the sweat of thy brow shalt thou eat thy bread

We shall use all our strength in support of laws made to harmonize the interests of capital and labor but we declare that a stop shall be put to the greedy haste so prevalent in the land to gain wealth by robbing the honest toiler of his hard earnings

And further be it known that we are not assembled in the interest of any candidate for any office He who seeks our portals must come clean handed and honest breasted No Judases are wanted among us

Such being some of our objects and such being our faith we propose to make nominations from among us regardless of what others may do and relying upon our own strength and honesty of purpose by the eternal we mean to win

At the conclusion of Mr Hicks remarks the

PLATFORM

Was read by Prof Chaney It is too lengthy for our columns The preamble expresses a total loss of hope in the two old political parties severs all party ties and pledges fidelity to the cause of the working man Article 1 enumerates the grievances and demands a policy favoring the industrial classes The second being a new feature we give it in full

In order to fully carry out the reform demanded in the first plank of this platform we demand that the general government shall establish a branch agricultural bureau at the capital or chief city of every state and territory the prime object for which shall be to loan money in small sums to farmers mechanics and manufacturers taking a mortgage on the lands buildings machinery etc of the borrower as security, the interest not to exceed six per cent per annum to be paid annually and the mortgage never to be foreclosed so long as the interest is kept paid up and honest industry thereon maintained

The 3d article calls for the abolition of national banks the 4th demands modification or abrogation of the treaty with China the 5th demands an investigation of the management and sale of the public lands the 6th demands the change of all laws which tend to make the rich richer and the poor poorer 7th reduction of all salaries so that the salary of an office which an intelligent laborer can fill shall not be in excess of the wages of a first class mechanic The 8th article invites the co operation of not only workingmen but others who feel the justice of the cause etc

ADDRESSES

After the reading of the platform, Dr Folkman addressed the audience in German He was followed by Messrs George P Riley W W Baker, Peters Brown Prof. Chaney O P Mason and C Beal successively whose speeches were well received by the audience Some of these may not be termed working men in the usually accepted meaning of the term but they all claimed a kindly feeling for the cause and as Mason Chaney and Folkman proclaimed themselves to belong to the horny handed sons of toil a perceptible smile could be seen on many faces not merely of amusement but somewhat of surprise

When the speaking was over Prof Chaney moved that the platform be adopted which was carried without a dissenting voice

The following resolution was then adopted

Resolved That the thanks of the workingmen of Portland are hereby tendered to the authorities by which we have been privileged to meet in public assembly at the court house April 3 1878

Dr Folkman then took the stand to speak in English but the audience seemed to have had enough speaking and many arose to leave whereupon some one made a motion to adjourn which was carried unanimously, and the Doctor's English speech was nipped in the bud

SCIO

Nov [illegible] an occasional correspondent writes as follows from Scio under date of the 1st inst

When one comes to a town a stranger they are perhaps better able to pass judgment in a general way than after becoming better acquainted and the writer is just such a person regarding Scio Monday the train left me at Marion, the nearest station and then after a slow ride through mud for nearly eight miles arrived at this place The sun was shining bright and warm the flowers in the fields and lanes threw out a refreshing fragrance and the town as it is nestled among trees looked so romantic and homelike the writer was pleased at once

Wandering through the streets everything betokened thrift and contentment Several dry goods and grocery stores a postoffice hotel drug store two saloons two churches—one the Methodist being a very pretty building The inhabitants number about 300 They have a brass band which discoursed some very good music last evening The town situated on the Thomas creek of the Santiam which empties into the Willamette above Salem is the center of an extensive wheat section and will some time become quite a town

An excellent flouring mill has been in operation for many years past The property has lately been purchased by R. Portland formerly of The Dalles

The three political parties are represented—Republican Democratic and Greenback—when any one of these take upon themselves to denounce cheap labor and wish to drive away the Chinamen they should look around them and see the brush land that these same Chinamen could clear and the returns would many times repay the expense

Last evening the open temperance society had a meeting We were fortunate in being present and were surprised at the talent shown The singing by the choir was excellent and the declamations especially so The pieces were well learned and were rendered in a style which would lead one to believe the speakers had had much experience on the stage Everything passed off pleasantly

The fall wheat looks well and farmers are all busy putting in lots of land for the coming high prices resulting from England and Russia going to war

SPRING GOODS!

IN ADDRESSING THE PUBLIC ON THIS OCcasion we do so with more confidence than at any time since our advent into business. Our career in business has been singularly successful, having attained a degree of enviable notoriety for straightforward dealing selling goods at a slight margin on importers prices

Our STOCK for the Spring Trade is one of the best selected and the most comprehensive ever before offered to the people of Oregon—bought on the most advantageous terms and embracing every line in the trade

In disposing of this Immense Stock our conduct shall be guided by the same golden rule as heretofore—**Honest dealing and the Smallest Living Profits**

Our patrons embrace a large number of the Northwestern population and in sending out our

SPRING GREETING

we hope to see or hear from all our old friends and as many new ones as wish to avail themselves of this opportunity of purchasing goods cheaper than ever before offered in the Metropolis of the Northwest

Our facilities this year have been peculiarly favorable for purchasing having through our friends of the Bay City had the chance of picking up special lines suitable for this market, at prices for which manufacturers could not begin to produce them This in a great measure is caused by the almost general stagnation of business in the leading markets of the United States and more directly affecting the Pacific States from the hard times they have had and are having in San Francisco The consequence is the merchants there must unload their heavy stocks, and in many cases at a great sacrifice

Fully realizing the situation our MR KERRON launched out and purchased an

IMMENSE STOCK!

More than in ordinary times he would have been justified in buying; but the low prices he obtained them at will enable us to spread them over this State and the Territories at such a reduction on old time prices as will convince the most skeptical that we mean business, and business we

Must and Will Do!

It would be useless attempting to give a List of Prices Space does not warrant it. But we shall forward samples to any of our country friends who send for them

The public in dealing with us can place implicit faith in the fact that the lowest prices are asked All Goods are marked in plain figures from which there can be no deviation thus placing the inexperienced on equal terms with the experienced in the purchase of goods.

Our country friends would do well to reap the advantage of an early inspection of our Warehouse. It is incumbent on us to make room We are crowded and we must move goods off to make way for fresh contracts to arrive by every Steamer during all April.

We have advices of a shipment of Goods from Glasgow direct now fully due and daily expected

CLOSING SCENE OF THE WAR

HOW PEACE WAS PROCLAIMED AT SAN STEFANO—A PICTURESQUE DESCRIPTION

(Cor London Daily News.)

In a house by the seaside at San Stefano [illegible] by the increasing gale that tore across the Sea of Marmora were busy all night long the secretaries of both diplomatic bodies copying and arranging for the signatures to the treaty of peace the result of the now concluded negotiations. All night long Prince Tzeretaleff dictated the treaty [illegible] Chebacheff who wrote and wrote through the long hours until the document was finished. About 4 o'clock the Grand Duke mounted and rode up to the diplomatic chancery where he asked at the door "Is it ready?" and then galloped toward the hill where the army was drawn up. Finally a carriage came whirling out of the village toward us. General Ignatieff was in it. [illegible] approach [illegible] "I [illegible] to congratulate your Highness on the signature of peace." There was a [illegible] shout. After riding between the lines the Grand Duke halted on a little eminence where all the troops could be seen and formally made the announcement of the peace: "I have the honor to inform the army that, with the help of God, we have concluded a treaty of peace." Then another shout burst forth from 20,000 throats, rising, swelling and dying away. After the review, gathering his officers about him where the priest stood ready for the Te Deum the Grand Duke spoke briefly and emphatically, saying: "To an army which has accomplished what you have, my friends, nothing is impossible." Then all dismounted, uncovered and a solemn service was conducted, the soldiers all kneeling. Never was a peace concluded under more impressive surroundings. The two armies face to face, the clearing storm, the waning light of day, the rush of the wind and the near wash of the waves mingling with the chant of the priests and the responses of the soldiers and the roar of the sea of Marmora swelling and falling. Across the fretting chafing waters of the sea the dome and slender minarets of St Sophia came up sharply against the sky, the dominant points in the interesting silhouette of distant Stamboul. Away to the south the Princes Islands rose like great mounds dark and massive against the distant Asiatic shore and behind them was hidden the English fleet. Above and far beyond the white peak of Mount Olympus unveiled for the moment its majestic summit as the rays of the ruddy sunset were reflected from the snow colored flanks.

THE NATIONAL PARK

[From the Bismarck Tribune.]

Protect the Yellowstone Park by all means possible and practicable. It is a creation that no vandal should be suffered to gaze upon. Secretary Schurz' request for $15,000 to improve and protect should be granted without a dissenting voice. The report of the superintendent of the park shows the absolute necessity for a live guardian—one who can shoot. The superintendent says the act of March 18 1878, set aside and dedicated the Yellowstone National Park for the benefit and enjoyment of the people and provided formally against trespassers and for the preservation from injury and spoliation of all timber, mineral deposits and natural curiosities and wonders within it and their retention in their natural condition; also against the destruction of fish and game and for the construction of roads and bridges therein. No appropriation has yet been made to execute this legislation within my personal knowledge, which is confirmed by official publications and those of travelers. Valuable forests of pine and cedar timber have been prostrated and travel impeded by the careless use of fire. Bison, elk, antelope, bighorn sheep and other beautiful and valuable animals have been slaughtered by thousands merely for their tongues and pelts. Great masses of ancient timber fossils, geysers, cones and beautifully escalloped pool borders which made the region valuable have been broken up to obtain transportable specimens which have been made articles of fraudulent commerce. The preservation of these animals and wonders and the construction of roads, bridges, etc, are necessary to carry out the act. The opening of the great Yellowstone route by steamboats and the approach of several railroad routes, in rapid construction toward it, show the immediate need of practical means both to preserve the park from irreparable damage and to make the beauties enjoyable.

Pacific Railroad Discussion.

In the senate to-day while the Pacific R. R. matter was under consideration Sargent said: In 1871 the question arose whether interest payable now, and whether the whole transportation money should be held in the treasury to meet this interest, and after discussion in the senate an amendment was proposed to allow the questions to be carried to the court of claims. This amendment was favored by Edmunds, who would be glad to have the supreme court decide these questions, for if they decided in favor of the companies there was an end of the question. The supreme court has decided the question that transportation must be paid, yet it was allowed to go on with these additional requirements until there would be nothing left. He read extracts from several senators to show that it was then considered that such decision of the supreme court would be final.

Edmunds said he thought now as he thought then as to the law, and he felt that if the gentleman from California would argue the case of the people the supreme court might reverse its decision, as it had in the legal tender and some other cases.

FINANCE AND COMMERCE.

Legal tenders in Portland—buying 98½ selling 99½

Silver in Portland 3@4 per cent. discount

In no material respect is the business situation financial or commercial, changed from the condition noticed frequently heretofore of late. The demand for loans, both on real and personal security, shows some increase as the season progresses, but rates show no tendency whatever to advance. The *Advocate*, branching off from its accustomed channel of teaching morality and religion, essays a lesson of finance, in which some sound doctrine is advanced. It says:

There is considerable idle capital in the market and merchants and business men choose to act careful with close margins and quick sales rather than venture on borrowed capital and speculation, and until money is put down to say 6 and 8 per cent. per annum it is the safer plan not to venture or rely on borrowed resources. A high state of interest is always an insecure basis upon which to hope for permanent prosperity. It is ever prompted by speculative motives and hence is unreliable. We believe, therefore, that capitalists will always find it safer to loan money at low rates, from the very fact that it affords the borrower a chance to live.

Domestic Produce.

In the late advance in wheat quotations in the market of San Francisco, holders of the cereal in this section seem to have been the first to feel the influence, and they put the price up so rapidly that buyers manifested no disposition to make an attempt to meet them, and hence transactions were but slightly enhanced in volume and the market has now settled back into the old state of quietness and to the former prices, although the news from Europe, which was supposed to be the cause of the excitement, is still as warlike as ever. Flour is steady at $5 75@6 for standard extras with rather more of a disposition to stand out for the latter figure for 20 bbl lots or less than prevailed a week ago. Provisions continue dull and trade rather slow and it seems likely that a further reduction in prices must be made in order to get off the somewhat large stocks now in hand, but former quotations are still nominally retained. Dairy products are plentiful of all kinds except choice butter for local consumption which is in good demand. Eggs are weak at 1 @16 cents per dozen, with but little demand for shipments. Potatoes and apples are less active but prices have not been marked down and choice lots for shipment quite readily command the quotations given in our last report on the matter. Other products are in rather diminished receipt and prices unchanged.

DR. PAUL M. BRENAN,

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Private Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief to the sore and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their sufferings and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand and the patient need not fear the result.

GENERAL NEWS.

BY TELEGRAPH TO THE OREGONIAN.]

Ugly Rumors about Pacific Mail

New York, April 4.—The *Tribune* has the following: That very serious rumors about the financial condition of the Pacific Mail Steamship Company have been in circulation on Wall street for several weeks. It has been well known. Some of the officers of the present management, the wisdom or fidelity of the present management. Numerous meetings of the board of directors have been held during the past two months at some of which discussions have been enlivened by charges of effort of the officers to conceal the true condition of the company and other mismanagement. About two weeks ago the opposition, which has been headed by Henry Hart, vice president of the Third Avenue Railroad Company, succeeded in having a committee appointed to make a thorough investigation of the accounts of the company and to make a report to the board at as early a day as possible. Yesterday Hart issued a circular to which he signs his name as director and in which he says he would be pleased to hold a personal conference with or receive proxies of all the stockholders of the Pacific Mail Steamship Company who are in favor of an economical and faithful administration of the large business of this company. The election for new directors will take place on Wednesday, May 20th. Hart stated yesterday evening that he had not yet completed his ticket, but that he would have it ready in a few days. What he wanted was honest and economical management. He was a very large stockholder, and he believed, with proper management, the company could be made to earn handsome dividends. The managers should be men whose first interest was the company's interest; men who had no private aims to serve in connection with their control of the company. He did not believe one half the members of the board were men of that sort, and therefore he thought a change should be made. Some of the members had worked hard during the past winter to place the company in a position to pay its way and earn a profit for its stockholders but they were in the minority. Another director of the company, who has not been recognized as one of Hart's followers has sold a large portion of his Pacific Mail stock during the week.

WASHINGTON CITY.

Vance a Bad Egg

New York April 4.—The *World's* Washington special says a dispatch from the west announcing the flight of ex-Congressman Vance of Ohio with a woman not his wife, and with large sums of money borrowed from others surprises few persons in Washington. People here have been aware of the fact that Vance had been wanted here during the past few days on the charge of a crime alleged to have been committed while he was a member of the house and chairman of the committee on printing. This was nothing more nor less than theft of books committed at various establishments in the District of Columbia, to which may be added another crime of indictable character. Some of his friends here are loth to believe that he was guilty and have been endeavoring to get him to Washington to present his explanation and defense, and he promised to and left home saying that he was coming here, but instead of that he fled to parts unknown.

Montgomery Blair has opened the regular campaign in behalf of his scheme for reopening the electoral count. On Monday the Maryland resolutions will be presented and a bill introduced in the house to bring the case before the supreme court. Blair mailed to senators and members to-day copies of the speech which he delivered in the legislature in support of his resolution. In this he assails the Democrats in congress who are opposed to a judicial review of the proceedings of the electoral commission, although he says the electoral bill contemplated such a review itself. He designated them as Hayes Democrats and [illegible] that [illegible] keep Hayes in office [illegible] president to Tilden. Blair [illegible] Democrats [illegible] scheme [illegible]
